Bears Controlled the Trading at the Exchange.

Shares Throughout the List, Except Reading, Fell Off in Price.

Surprise-The Quotations.

WALL STREET, Saturday, March 26 .- The opposing factions in the stock market had a battle royal this morning, and in the end the advantage rested with the bears. Prices, as a rule, were lower at the opening, but soon afterwards Reading forged to the front and ruse to 58% on the revival of the report from frenton that the Lease bill had been signed.

to order to become a law the bill must be nied with the Secretary of State. Up to the close of the Stock Exchange nothing had been ward of the bill at the Secretary's office.

The Industrials also showed considerable strength, particularly Distilling & Cattle Feeding and National Cordage.

After 11 o'clock the bears made a deter-mined raid on the list, and, owing to the lack of support in Northern Pacific and Richmond of support in Northern Pacine and Riccimonal Terminals, they were more successful than usual of late. Richmond Terminal preferred broke 5, to 60%, and trist 5s 23, to 60. The general market leil anywhere from 14 to 114 per cent, and left off heavy.

The Texas Railway Commissioners have reduced cattle rates 20 per cent.

The sliver market was demoralized, certificates tailing to 854 at the 8tock Exchange. The sliver market was demoralized, certificates tailing to 854g at the Stock Exchange without any business to speak of. At the close there was a rally to 87%. Bar sliver in London was nominally 400, bid.

The bank statement was a complete surprise. A loss in reserve had been fully counted on, but instead the surplus shows an increase of \$1.807,725, and the banks now hold \$1.807,425 in excess of the 25 per cent. legal requirements. A feature of the statement was the heavy contraction in loans, which reduced the deposit loans \$4.187,300. Following are the comparative figures:

Aureh 19. March 26. Changes.

It is claimed that the Stock Exchange has a perfect right to charge the New York Quotation Company the price paid by the Gold and Stock for the use of its quotations, while the ticker company is not at all justified in putting up the rates to such an exorbitant igure. There would be less cause for complaint if the Company had merely advanced its rates so as to cover the additional expense incurred by the tax which the Stock Exchange imposes for privileges. As it is, the Company is able to receive an additional appoint of at leart \$2,500 a month by the advance, for which it offers no additional advantages to aubscribers.

The officers of the Stock Exchange were very reticent this morning when questioned about the new move on the part of the ticker company, and declined to say what would be the probable outcome of the unpleasantness.

Ex-Alderman Abernethy, of Jersey City, general agent and manager of the Communipaw Coal Company, stated to-day that since the coal combine had been formed the price of coal has materially advanced.
